

# 2009 Release Areas

## Dampier Sub-basin, Carnarvon Basin

### Western Australia

For convenience, geographical coordinates shown on this map are expressed in terms of the Geocentric Datum of Australia 1994 (GDA94). Permit areas are defined by the 5 minute graticular block system set out under Section 16 of the Offshore Petroleum and Greenhouse Gas Storage Act 2006; under Sections 20, 21 and 21A of the Act, the position of those blocks is determined by reference to the Australian Geodetic Datum (AGD66).
